June

2007

You're reading Volume 1, Issue 1 of the The Agent, BigFix's monthly newsletter for customers, partners, prospects and anyone else interested in the BigFix universe. Every month, we'll sum up the latest BigFix company, product, and user news, plus unique perspectives on trends in enterprise information security and IT operations management. We welcome reader feedback. Let us know what you think via e-mail to the_agent@bigfix.com

Plug Data Leaks with BigFix

In the vast majority of cases, IT security risks involve external threats to business integrity. Data leaks can be just as damaging, but require enterprises to look within to safeguard operations. The recently introduced BigFix Data Leak Prevention extension does just that. [More >>](#)
